Internet user interface

Four-button remote control

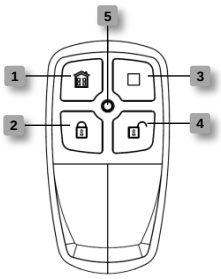
User Instructions

1. Description

1 **Partial arming**
Press this button to arm your unit in partial mode (only some of the intrusion detectors are active).

2 **Total arming**
Press this button to arm your unit in total mode (all of the intrusion detectors are active).

3 **Auxiliary key**
Press this button to trigger the auxiliary function programmed on your main unit (panic alert or scenario).



4 **Disarming**
Press this button to disable the protection of all the intrusion detectors. If the siren has been triggered, press this button to stop it.

5 **Operation LED**
This LED flashes to confirm that a signal has been sent to the main unit.

6 **Battery hatch**
The remote control uses a lithium battery. Its battery life is three years, assuming two activations per day.

2. Connection to the main unit

- Go into learning mode on your main unit
- Press buttons 1 and 4 together (Partial arming and Disarming) and hold for six seconds
- After six seconds, the LED flashes.
- The main unit emits an audible signal to confirm successful connection
- You can personalize your remote control via your Internet user access

3. Replacing the battery

Open the battery hatch at the back of the remote control by sliding the hatch downwards. Remove the used battery and insert the new one. Simply push it into the battery slot provided. Reposition the hatch by sliding it upwards.

4. Technical characteristics

- Compatibility: refer to the list of compatible units on www.myfox.me/support
- Cat. No. : FO 3004
- Frequency: 433.92 MHz
- Range: 200 m in free field
- Operating temperature: -10°C to +50°c
- CR2032 3V 230 mAh lithium battery
- Dimensions: H=72 mm x L=38 mm x D=16 mm
- Weight: 27 g

Note: Replacing the batteries with the wrong type of battery will cause a risk of explosion. Dispose of used batteries in accordance with instructions.
